DONI WICAKSONO

Software Engineering Student

doniwicaksonox@gmail.com | github.com/slashedzer0 | doniwicaksono.me

SUMMARY

Highly motivated Software Engineering student with a focus on building web applications. Proficient in Linux environments, I leverage my programming knowledge to design and implement both server-side and user-facing functionalities.

EXPERIENCE

Photo Editor Intern   **Jun 2018 - Jul 2018**
Matalensa Studio   Jakarta Timur
- Performed precise photo manipulation
- Conducted photo retouching techniques to deliver flawless, high-quality images
- Designed and created album layouts, transforming raw photos into cohesive visual narratives

EDUCATION

Bachelor of Science in Software Engineering   **Sep 2021 - Present**
Universitas Telkom Purwokerto   Banyumas
GPA: 3.92/4.00
Relevant Coursework: Web Development, Data Structures, Algorithms, Databases, Software Testing, Software Quality Assurance

PROJECTS

Pahe+ | GitHub⬈ | Live Demo⬈   **Jun 2024**
- Implemented responsive web design with Flexbox using Tailwind CSS utility classes
- Employed advanced library to achieve smooth animations and transitions
- Utilized Vite as the build tool for a faster and more efficient development experience

Playpal | GitHub⬈ | Live Demo⬈   **Dec 2023**
- Developed REST APIs to facilitate create, read, update, and delete operations
- Implemented user authentication (JWT), account settings, product catalog, order processing, and dashboard features
- Employed version control with Git and collaborated with a team using GitHub

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, Go
- **Web Technologies:** HTML, CSS, jQuery, Alpine.js, Tailwind CSS, Bootstrap, Node.js, Flask, Vite
- **Databases:** MongoDB, MySQL
- **Tools:** Git, VS Code, Figma, DataGrip, Hoppscotch, Balsamiq
- **Others:** Linux, Photoshop

CERTIFICATIONS

Full-stack Web Development | Details⬈   **Aug 2023 - Dec 2023**
MSIB x LearningX
- Achieved very good grades
- Named as one of the top 5 students
